## Customise with Grow Mode Options

Our pots and planters can be customised to suit interior and exterior environments. Our range of colour inserts, low voltage lighting effects and self watering systems present as options for customising a look and feel tailored to suit your individual needs.

## Pots and planters for greener spaces

Grow Mode's range of pots and planters are 100 percent recyclable and as green as the plant inside. Our products are durable, impact resistant, lightweight, easy to clean and maintenance free. With a wide range of standard and custom colour options on offer, Grow Mode pots and planters guarantee colour retention against today's harsh climate.

# Options

## Colour Inserts

Create contrasting colour variations and coordinate with décor by including colour inserts. Select a custom combination from the colour wheels provided to build your unique effect.

To retain colour over the time the colour is UV resistant and is permanently moulded through every product

- > Custom colours are available on request
- > Colours are a guide only

## LED Lighting

Set the mood and add dimension with Grow Mode's LED lighting options. Create or compliment themes with various colour combinations and transitions.

### Rhombus and Loop options

LED lighting options for Grow Mode's Rhombus and Loop ranges produce a soft glow in different colours and sequences chosen from a pocket remote controller.

### Stretch and M-Stretch options

LED strip lighting is fitted within the cavity of the Stretch and M-Stretch modules to create an ambient spread of cool white light.

### Features

- > **Low Voltage**  
Low voltage LED illumination for safe and efficient operation
- > **Water Resistant**  
LED components are water and weather resistant for outdoor use
- > **Remote Control** (Rhombus & Loop only)  
Adjust colours, brightness and sequences from one remote controller
- > **Durable**  
LED's provide impact resistant and long lasting illumination

## Self Watering

Grow Mode's Self Watering system is an advanced and trouble-free method of sustaining indoor and outdoor plant installations. This system minimises the maintenance requirements of living plants by maintaining adequate soil moisture for up to 6 weeks.

### Indoor installations

With an integrally moulded reservoir, there is no chance of leakage from overfilling or corrosion. The reservoir level is easily monitored via the indicator tube for peace of mind.

### Outdoor installations

Grow Mode's Self Watering System can be simply adapted with the inclusion of an overflow to suit outdoor installations, to protect the plant from drowning during heavy rainfall.

### Self watering system contains

- > Rim plate
- > Grow pot
- > Capillary fabric
- > Level indicator tube

## Grow Mode by Mode Solutions

© Mode Solutions

Mode Solutions is an Australian owned company delivering a high-quality collection of commercial furnishings for indoor and outdoor environments. With over 15 years design experience, our standard range and custom model furnishings offer class and prestige to a wide selection of commercial spaces. With a focus on customer service and satisfaction, we work together with our clients to deliver harmonious, innovative solutions.
